Bihar Geography English Notes (Part-1)

Bihar Geography

Student's Space

Bihar is a state located in the eastern part of India. It shares both **international** and **interstate** boundaries. Here's a detailed overview:

International Boundary

- **Nepal** (to the north): Bihar shares a long international border with Nepal, which influences cross-border trade, culture, and migration.

Interstate Boundaries

1. **Uttar Pradesh** – to the **west**
2. **Jharkhand** – to the **south**
3. **West Bengal** – to the **east**

Geographical Context

- **Northern Boundary:** Formed mainly by the Himalayan foothills and plains adjoining Nepal.
- **Southern Boundary:** Mainly plateau regions bordering Jharkhand.
- **Eastern Boundary:** Ganges deltaic plains leading into West Bengal.
- **Western Boundary:** Gangetic plains extending into eastern Uttar Pradesh.

Do you know

Magadh and purnea	Magadh has 5 districts while Purnea has 4 districts
Smallest Division	Bhagalpur division with only 2 districts Both its districts shares border with Jharkhand.

Student's Space

Important personalities of Bihar**Ramdhari Singh Dinkar**

Prof. Ramdhari Singh Dinkar (23 September 1908 – 24 April 1974), commonly known as Dinkar, was a celebrated Hindi poet, freedom fighter, and parliamentarian from Bihar. Born in Simaria village (now Begusarai district). Dinkar's first collection of poetry, Vijay Sandesh, was published in 1928. In 1946, demonstrating his commitment to Indian literature, he launched his own monthly journal, Udyachal, providing a platform for progressive writing.

An active participant in the freedom struggle, Dinkar's early works were inspired by nationalism and rebellion. He later described himself humorously as a "Bad Gandhian" — embracing Gandhi's ideals yet unapologetically vocal in his expression of anger and resistance.

he started his career as Headmaster and then he became sub registrar, He also held the position of Vice-Chancellor of Bhagalpur University in the early 1960s.

Dinkar received major literary accolades:

- Sahitya Akademi Award, 1959 for his work "sanskriti ke chaar adhyay"
- Padma Bhushan, 1959
- Jnanpith Award, 1972 for "URVASHI"

After his passing in 1974, he was honored in various ways. A statue of him was installed inside the Parliament Museum in 2008.

Geological time scale of Bihar

Student's Space

**Geological Time Scale – Bihar**

Era/Period	Associated Rock Formations / Features	Examples / Areas
Precambrian (Archean)	Granite, Gabro, Basalt	Districts touching Jharkhand
Paleo	Dharwad rocks	Munger, Jamui and eastern Nawada
Mesozoic	Sandstone, limestone	Kaimur and Rohtash
Cenozoic	Tertiary formations	Shivalik range
Quaternary	Alluvial deposits	Indo-Gangetic Plain (IGP), Thar, Kashmir valley etc

Key Points

- Shivalik range is present in west Champaran district of Bihar (856 sq. km)
- Limestone is used in cement industry while sandstone is used as excellent building material
- Highest peak of Bihar is Someshwar fort (880 mts) in west Champaran
- Series of small hills in Shivalik region of Bihar is called "Ramnagar duns" and its highest peak is "Santpur" (240 mts)
- Piedmont soil is found in West Champaran
- Valmiki tiger Reserve is present in west Champaran
- West Champaran is largest district by area while Sheohar is smallest district (Sheohar shares border with three districts)
- Terai belt is present in bordering districts with Nepal and its largest extent is in "Araria".
- Sasaram has tomb of Sher Shah Suri (made by Aliwal Khan), Hasan Khan Sur and Islam Khan Sur
- Rohtashgarh fort is also present in Rohtash

- Rohtas fort was made by Sher shah Suri to evade the attack of Humayun, it is UNESCO world heritage site and is present in present day Pakistan (Punjab)
